

CASTLE PINES VILLAGE APPROVED PLANT LIST

Revised: April 2016

Castle Pines Village is a covenant-controlled community. The covenants are provided in the Amended and Restated Castle Pines Declaration and Agreement Creating Covenants, Conditions, Restrictions and Easements (a copy can be obtained on the Castle Pines Village website at www.castlepinesvillage.org or at the Homes Association Office). The covenants created the Design Review Committee which is responsible to review and approve all improvements in the Village. Page 23 of the covenants state, “No work of improvement, grading, excavation, landscaping, tree or shrub planting or removal shall be undertaken on any Lot or Lots without the prior approval of the Design Review Committee” which is responsible to review and approve the homeowner’s detailed plan specifying the proposed improvements.

It is the intent of the Landscape Standards for Castle Pines Village to unify the newly built environment with that of the original natural setting and remaining undisturbed Village setting. The overall objective is to establish harmony between native and introduced plant materials that not only thrive in the Village environment, but also enhance the landscape experience in the Village. Attention must be given to the use of plants that integrate the landscape from house to house and to the original natural environment. Plantings along the public streets, common areas, and open space frontages visible to the public must be limited to native species originally found in the existing landscape, and to a lesser degree, non-native plants specifically approved in the Landscape Standards for these applications noted as “transitional” plants in the Approved Plant List. As one drives through Castle Pines Village along the most-traveled roads, the appearance of the landscape should be one of a cohesive and consistent ‘natural elegance’, lined with irrigated short grasses that blend into the more natural grasses and native plants in the common open areas or into the approved landscapes on private property.

Site planning and location of new homes must be designed to preserve native plants and privacy. Wildlife corridors are provided to allow the deer, elk and other animals to roam through the Village relatively undisturbed as they have for centuries. Landscapes should also preserve the appearance of the native environment. Plants are to be of substantial size and quality so that they establish a cohesive landscape that immediately contributes to the Village as a whole. Plant sizes noted below are minimums:

Plant Type	Minimum Size Required
Larger Deciduous Trees	2 ½ - 3 inch caliper
Smaller Deciduous Trees	6-8 foot height, B&B, if located adjacent to public streets, open spaces, common areas and golf courses
Evergreen Trees	12+ foot height adjacent to public streets, open spaces, common areas and golf courses. 8+ feet in other locations
Deciduous Shrubs	2/3 of total amount in 5-gallon containers 1/3 total amount B&B if located adjacent to public streets, open spaces, common areas and golf courses
Evergreen Shrubs	5-gallon containers
Perennials and Groundcovers	All sizes permitted
Ornamental Grasses	1-gallon containers
Vines	1-gallon containers

LARGER DECIDUOUS TREES

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Native Thin-leaf Alder	NW	<i>Alnus incana tenuifolia</i>	20-30' x 20'	Wetter areas only
Lanceleaf Cottonwood	NW	<i>Populus acuminata</i>	40-60' x 25'	For use in major drainage-ways
Swamp White Oak		<i>Quercus bicolor</i>	40-50' x 30'	Difficult to transplant and/or establish - planting advice helpful
Burr Oak		<i>Quercus macrocarpa</i>	60'+ x 40'+	Difficult to transplant and/or establish - planting advice helpful
Northern Red Oak		<i>Quercus robur</i>	40-50' x 30'+	Most difficult to transplant and/or establish - planting advice helpful
English Oak		<i>Quercus rubra</i>	50-60' x 30'+	More difficult to transplant - prefers a protected area - planting advice helpful
Quaking Aspen	NW	<i>Populus tremuloides</i>	30-40' x 20-25'	Requires ample moisture. Recommend nursery, not wild-harvested stock; subject to numerous insect and disease problems, short lived

SMALLER DECIDUOUS TREES

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Ginnala (Amur) Maple	X	<i>Acer ginnala</i>	20-25' x 20'	Transitional *
Rocky Mountain Maple	N	<i>Acer glabrum</i>	15-30' x 20'	Difficult to transplant
Wasatch/Bigtooth Maple	N	<i>Acer grandidentatum</i>	15-30' x 15-20'	
Tatarian Maple - Varieties		<i>Acer tataricum</i>	20-25' x 15-20'	Similar to ginnala maple – Transitional *
Saskatoon Serviceberry	N	<i>Amelanchier alnifolia</i>	10-15' x 10'	Does best in protected areas; shade tolerant - Transitional *
Shadblow Serviceberry		<i>Amelanchier canadensis</i>	15-20' x 15'	Similar to above - Transitional *
Serviceberry		<i>A. grandiflora</i>	Varies	
Colorado River Birch	NW	<i>Betula occidentalis(fontinalis)</i>	20-30' x 20'	Multi-stem shrubby tree for wet, protected areas - Transitional *
Thornless Cockspur Hawthorn		<i>Crataegus crus-gallinermis</i>	20' x 15'+	Transitional *
Washington Hawthorn		<i>Crataegus phaenopyrum</i>	20-30' x 20'	Very thorny, spreads with age
Native Hawthorn	N	<i>Crataegus succulenta, et al</i>	8-15' x 8'+	Transitional *
Winter King Hawthorn		<i>Crataegus viridis 'Winter King'</i>	15' x 15'	
Crusader Hawthorn		<i>Crataegus 'crusader'</i>	20' x 20'	

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Russian Hawthorn		<i>Crataegus ambigua</i>	20' x 20'	Refer to PlantSelect.org
American Plum	N	<i>Prunus americana</i>	15-20' x 15-20'	Prone to storm damage & insect pests - Transitional *
Native Chokecherry	N	<i>Prunus melanocarpa (virginiana)</i>	15-25' x 15 - 20'	Irregular shrubby tree; subject to insect pests (red leafed varieties-newport, cistina, Schubert-not permitted) - Transitional *
Gambel Oak (Scrub Oak)	NX	<i>Quercus gambelii</i>	10-25'+	Best used in group or mass plantings for naturalizing; container stock is safest for transplanting - Transitional *

EVERGREEN TREES

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
White Fir	N	<i>Abies concolor</i>	60-100' x 25-35'	Do not use for massing due to combustibility. Best in protected areas with ample moisture; can be difficult to transplant.
Rocky Mountain Juniper	NX	<i>Juniperus scopulorum (aka Western Red Cedar)</i>	20-30' x 15-20'	Limited use due to concern of combustibility, prefers south & west slopes, well-drained conditions - Transitional *
Woodward Columnar Juniper		<i>Juniperus scopulorum 'Woodward'</i>	20'x4'	Refer to PlantSelect.org
Bristlecone Pine	NX	<i>Pinus aristata</i>	15-25' x 10-15'	Prefers gravelly soil
Pinyon Pine	NX	<i>Pinus cembroides edulis</i>	15-20' x 10-15'	Requires dry, well-drained conditions - Transitional *
Limber Pine	NX	<i>Pinus flexilis (and varieties)</i>	30'+ x 20'+	Drought and wind tolerant
Austrian Pine	X	<i>Pinus nigra</i>	50-60' x 25-30'	Full and bushy to the ground; elk-damage potential - do not plant on wildlife corridors or golf course frontage - Transitional *
Ponderosa Pine	NX	<i>Pinus ponderosa</i>	50-80' x 25-40'	The signature tree of our pine-oak forest. Loses lower limbs with age; spade dug stock preferred - Transitional *
Scotch Pine	X	<i>Pinus sylvestris</i>	40-60' x 25-30'	Use sparingly; somewhat irregular habitat
Douglas Fir	N	<i>Pseudotsuga menziesii</i>	60-100' x 30'+	Use sparingly - do not use for massing. Needs some moisture

DECIDUOUS SHRUBS

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Regent Serviceberry		<i>Amelanchier alnifolia</i>	4-5'x 4'or less	Somewhat shade tolerant - Transitional *
Leadplant (Indigobush)	NX	<i>Amorpha canescens, et al</i>		Good for naturalization near drainages
Red Chokeberry		<i>Aronia arbutifolia</i>	6-10' x 4-6'	
Black Chokeberry		<i>Aronia melanocarpa</i>	3-4' x4'	
Blue Mist Spirea	X	<i>Caryopteris clandonensis</i>	42" x 42"	Requires pruning of winter die-back; attracts bees

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **S** = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Curlleaf Mountain Mahogany	NX	<i>Cercocarpus ledifolius</i>	10-20' x 10-15'	Character specimen in dry-land plantings - Transitional *
Littleleaf Mountain Mahogany		<i>Cercocarpus intricatus</i>	4-5'x3-4'	Transitional*
Mountain Mahogany	NX	<i>Cercocarpus montanus</i>	6-12' x 6'	Irregular, often leggy shrub for hot, dry areas - Transitional *
Fernbush	NX	<i>Chamaebatiaria millefolium</i>	6' x 4-6'	Dry-land specimen - Transitional *
Baby Blue Rabbitbrush		<i>Chrysothamnus (Ericameria) nauseosus var. nauseosus</i>	16-24"x20-30"	Refer to PlantSelect.org
Dwarf Blue Rabbitbrush	NX	<i>Chrysothamnus nauseosus var.</i>	3' x 3-4'	-Transitional *
Isanti Dogwood	W	<i>Cornus sericea 'Isanti'</i>	5-6' x 6'+	Dwarf form of red-twigg dogwood; shade tolerant - Transitional *
Red-twigg Dogwood	NW	<i>Cornus stolonifera (sericea)</i>	10-12' x 10'	Shade tolerant large shrub for wetter areas; requires renewal pruning - Transitional *
Cranberry Cotoneaster	X	<i>Cotoneaster apiculatus</i>	2-3' x 4'+	A good substitute for spreading juniper
Cliffrose	NX	<i>Cowania mexicana</i>	6-10' x 6'	
Spanish Gold Broom		<i>Cytisus purgans</i>	3-4'x5-6'	Refer to PlantSelect.org
Carol Mackie Daphne		<i>Daphne x burkwoodii 'Carol Mackie'</i>	3-4'x3-4'	
Bluestem Joint Fir		<i>Ephedra equisetina</i>	4-5"x6-8	Refer to PlantSelect.org
Burning Bush	X	<i>Euonymus alatus (& compacta)</i>	6-10' x 6-8'	Shade tolerant, susceptible to rabbit and/or vole damage
New Mexican Privet	NX	<i>Forestiera neomexicana</i>	10-12' x 6-8'	Upright drought-tolerant screen plant in transition to native dry-land areas
Red Yucca		<i>Hesperaloe parviflora</i>	36-48"x36-48"	Refer to PlantSelect.org
Mountain (Rock) Spirea	NX	<i>Holodiscus dumosus</i>	4-8' x 4-6'	Shade tolerant, naturalized rock areas
Waxflower	N	<i>Jamesia americana</i>	4-6' x 3-5'	Part to deep shade
Russian Sage	X	<i>Perovskia atriplicifolia</i>	4-5' x 4-5'	- Transitional *
Cheyenne Mock Orange		<i>Philadelphus lewisii</i>	6-7'x6-7'	Refer to PlantSelect.org
Mountain Ninebark	N	<i>Physocarpus monogynus</i>	3-4' x 2-3'	Shade tolerant native under pines. Yellow and red leaved hybrids are not permitted - Transitional *
Native Potentilla	NW	<i>Potentilla fruticosa</i>	2-3' x 3'+	Recurrent yellow flowers; a bit difficult to prune out and keep neat - Transitional *
White Flowering Potentilla 'Abbotswood'		<i>Potentilla fruticosa</i>	2' x 3'+	Spreading low variety; full sun for best flowering - Transitional *
Western Sand Cherry	NX	<i>Prunus besseyi</i>	4-6' x 4-6'	Good near water or dry streambed - Transitional *
Creeping Western Sand Cherry	NX	<i>Prunus besseyi 'Pawnee Buttes'</i>	18" x 4'	A dwarf, ground hugging variety of the above - Transitional *
Smith's Buckthorn		<i>Rhamnus smithii</i>	8-10'x8-10'	
Grow-low Sumac	X	<i>Rhus aromatica 'Growlow'</i>	18-24" x 4'+	Low spreading habit with glossy green foliage and reddish fall color

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Autumn Amber Sumac		<i>Rhus trilobata</i> 'Autumn Amber'	10-14" x 6-8'	Transitional*
Three-Leaf Sumac	NX	<i>Rhus trilobata</i> (or <i>aromatica</i>)	5-7' x 5'+	Excellent for screening, massing; very tough - Transitional *
Golden Currant	NX	<i>Ribes aureum</i>	4-6' x 5'	Shade and drought tolerant - Transitional *
Wax Currant	NX	<i>Ribes cereum</i>	3' x 3'	Dry-land planting and in rocks; very tough - Transitional *
Comanche Gooseberry		<i>Ribes uva-crispa</i> 'Red Jacket'	2-3' x 4-5'	Transitional*
Shrub Roses		<i>Rosa ssp</i>	Varies	
Austrian Copper Rose	X	<i>Rosa foetida bicolor</i>	6-8' x 8'+	
Redleaf Rose		<i>Rosa glauca</i> , <i>R. rubrifolia</i>	6-8' x 4-6'	Refer to PlantSelect.org
Ruby Voodoo Rose		<i>Rosa</i> 'Ruby Voodoo'	5-6' x 4-5'	Refer to PlantSelect.org
Boulder Raspberry	NX	<i>Rubus deliciosus</i>	5-8' x 6'+	Widely arching - Transitional *
Siberian Spirea		<i>Sibiraea laevigata</i>	4-5' x 6-8"	Refer to PlantSelect.org
Spirea	X	<i>Spiraea bumalda</i>	2-4' ht	Smaller green-leafed varieties such as 'Forebel', 'Anthony Waterer' and 'Little princess' are permitted
Snowberry (var)	XW	<i>Symphoricarpus albus</i>	4-5' x 5'+	Arching habit; shade tolerant
Snowberry, Native	NX	<i>S. occidentalis</i> , <i>S. orbiculatus</i>	2-3' x 4'+	Good in dry shade, under-story to pines - Transitional *
Wayfaring tree Viburnum	X	<i>Viburnum lantana</i>	10-15' x 8'	Upright, tree-like branching structure
Mohican Viburnum	X	<i>Viburnum lantana</i> 'Mohican'	8-10' x 8'	Transitional *
Viburnum – Varieties		<i>Viburnum</i>	4-10' x 4-10'	Refer to PlantSelect.org
Compact Cranberrybush	W	<i>Viburnum opulus compactum</i>	4-5' x 4'	Transitional *
<u>EVERGREEN</u> <u>SHRUBS</u>				
COMMON NAME	NOTES	SCIENTIFIC NAME	HEIGHT/SPREAD	COMMENTS
Panchito Manzanita	X	<i>Arctostaphylos x coloradoensis</i>	10-14" x 24-36"	Refer to PlantSelect.org
Common Juniper	NX	<i>Juniperus communis</i> ('effusa')	18-24" x 6'	Do not plant under decks or windows due to combustibility
Buffalo Juniper	X	<i>Juniperus sabina</i> 'Buffalo'	12-18" x 8'	Do not plant under decks or windows due to combustibility
Calgary Carpet Juniper	X	<i>Juniperus sabina</i> 'Calgary'	9-12" x 6'	Do not plant under decks or windows due to combustibility

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

		<i>Carpet'</i>		
Blue Chip Juniper	X	<i>Juniperus horizontalis</i> 'Blue Chip'	6-8" x 8'	Do not plant under decks or windows due to combustibility
Compact Andorra Juniper	X	<i>Juniperus horiz.</i> 'Youngstown'	18-24" x 8'	Do not plant under decks or windows due to combustibility
Wilton Juniper	X	<i>Juniperus horiz.</i> 'Wiltoni'	4-6" x 8'	Do not plant under decks or windows due to combustibility
Sea Green Juniper	X	<i>Juniperus media</i>	6-7'	
Oregon Grape Holly	X	<i>Mahonia aquifolia compactum</i>	2-4' ht	Shade and acid soil preferred
Mountain Lover	N	<i>Paxistima myrsinites</i>	12-18" ht.	Shade and acid soil preferred
Dwarf Pinon Pine		<i>Pinus edulis</i>	24-30"x24-30"	Refer to PlantSelect.org
Blue Jazz Pinon Pine		<i>Pinus monophylla</i> 'Blue Jazz'	24"x24"	Refer to PlantSelect.org
Mugo Pine (varieties)	X	<i>Pinus mugo (pumilio)</i>	1-8' x 6'+	Can be used in rocks and for an evergreen screen of utility boxes
Yucca, Soapweed	NX	<i>Yucca glauca, Y. baccata</i>	2-3' ht.	Drier sites, full sun; - Transitional *
<u>PERENNIALS AND GROUNDCOVERS</u>				
<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Yarrow	X	<i>Achillea spp.</i>		Very tough. Full sun
Hyssop-Varieties	X	<i>Agastache</i>	16-18"x12-16"	Good in dry-land transitions
Colorado Desert Blue Star		<i>Amsonia jonesii</i>	10-14"x12-16"	Refer to PlantSelect.org
Cape Forget-Me-Not		<i>Anchusa capensis</i>	12-16"x4-8"	Refer to PlantSelect.org
Silky Rick Jasmine		<i>Androsace sarmentosa</i>	2-4"x8-12"	Refer to PlantSelect.org
Fall Anemone	N	<i>Anemone x hybrida</i>		
Pussytoes	X	<i>Antennaria neglecta</i>		
Filigree Daisy		<i>Anthemis marschalliana</i>	4-6"x18-24"	Refer to PlantSelect.org
Columbine - Varieties	S	<i>Aquilegia spp.</i>	28-32"x16-18"	Shaded woodland sites preferred
Kinnikinnick	NX	<i>Arctostaphylos uva-ursi</i>		
Desert Moss		<i>Arenaria "Wallowa Mountain"</i>	½-1"x10-14"	Refer to PlantSelect.org
Artemisia – Varieties Fringed Sage	NX	<i>Artemisia frigida</i>	8-12"x18-24"	
Butterfly Weed	NX	<i>Asclepia tuberosa</i>		Wetter areas only

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Alpine Aster	N	<i>Aster alpinus</i>		
Chocolate Flower	X	<i>Berlandiera lyrata</i>		Refer to PlantSelect.org
Poppy Mallow (Winecups)	NX	<i>Callirhoe involucrata</i>	6-8"x24-30"	Subject to foraging by rabbits
Prairie Lode Sundrops		<i>Calylophus serrulatus</i> 'Prairie Lode'	6-8"x12-16"	Refer to PlantSelect.org
Harebell/Bell Flower	S	<i>Campanula ssp</i>		
Jupiter's Beard	X	<i>Centranthus rubur</i>		
Snow-in-Summer	X	<i>Cerastium tomentosum</i>		
Mongolian Bells Clematis		<i>Clematis integrifolia</i> 'PSHarlan'	10-14"x14-18"	Refer to PlantSelect.org
Scott's sugarbowl		<i>Clematis scottii</i>	8-14"x12-18"	Refer to PlantSelect.org
Tickseed	X	<i>Coreopsis</i>		
Curly leaf sea kale		<i>Crambe maritima</i>	18-24"x24-30"	Refer to PlantSelect.org
Prairie Clover	X	<i>Dalea purpurea</i>		
Ice Plant - Varieties	X	<i>Delosperma</i>		Refer to PlantSelect.org
Larkspur/Delphinium	X	<i>Delphinium ssp</i>		Toxic
Dianthus - Varieties	NX	<i>Dianthus</i>	14-20"x12-16"	Refer to PlantSelect.org
Coral Canyon Twinspur	S	<i>Diascia intergerrima</i>	14-16"x10-14"	Refer to PlantSelect.org
Foxglove - Varieties	S	<i>Digitalis ssp</i>	12-14"x12-14"	Toxic
Yellow Stardust Draba		<i>Draba rigida</i>	2-3"x6-10"	Refer to PlantSelect.org
Coneflower - Varieties	NX	<i>Echinacea</i>	18-24"x16-18"	Refer to PlantSelect.org
Red Feathers		<i>Echium russicum (compact form)</i>	12-16"x6-10"	Refer to PlantSelect.org
Engelmann's Daisy		<i>Engelmannia peristenia</i>	28-30"x14-18"	Refer to PlantSelect.org
Alpine Willowherb	X	<i>Epilobium fleischeri</i>	16-20"x8-12"	Refer to PlantSelect.org
Fleabane Daisy	NX	<i>Erigeron compositus</i>		
Aspen Daisy	NX	<i>Erigeron speciosus</i>		
Sulfur Flower	X	<i>Eriogonum umbellatum</i>		Refer to PlantSelect.org
Kannah Creek Buckwheat		<i>Eriogonum umbellatum</i> var. <i>aureum</i> 'Psdawns'	10-14"x18-24"	Refer to PlantSelect.org
Snow Mesa Buckwheat		<i>Eriogonum Wrightii</i> var. <i>wrightii</i>	16-20"x18-24"	Refer to PlantSelect.org
Golden Storksbill		<i>Erodium chrysanthum</i>	8-10"x10-25"	Refer to PlantSelect.org
Purple-leaf Wintercreeper	S	<i>Euonymus fortunei</i> 'Coloratus'		
Wild Strawberry	S	<i>Fragaria vesca</i>		
Native Blanketflower	NX	<i>Gaillardia aristata</i>		

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Blanketflower	X	<i>Gaillardia grandiflora var.</i>		
Gazania - Varieties	X	<i>Gazania</i>	4-6"x10-12"	Refer to PlantSelect.org
Cranesbill - Varieties	X	<i>Geranium ssp.</i>	4-8"x8-12"	Refer to PlantSelect.org
Wild Geranium	NX	<i>Geranium viscosissimum</i>		
Whirling Butterflies	X	<i>Guara lindheimeri</i>		
Sunrose	X	<i>Helianthemum ssp.</i>		
Maximilian Sunflower	X	<i>Helianthus maxmilliani</i>		
Daylilies	X	<i>Hemerocallis ssp.</i>		Accent only; not in masses
Goldhill Golden-Aster		<i>Heterotheca Jonesii x Villosa 'Goldhill'</i>	2-4"x6-10"	Refer to PlantSelect.org
Sandia Coral Bells		<i>Heuchera pulchella</i>	4-6"x6-10"	Refer to PlantSelect.org
Snow Angel Coral Bells		<i>Heuchera sanguinea 'Snow Angel'</i>	6-10"x8-10"	Refer to PlantSelect.org
Dwarf Beach-Head Iris		<i>Iris hookeri, I. setosa ssp. canadensis</i>	8-12"x8-12"	Refer to PlantSelect.org
Blue Flag Iris	NX	<i>Iris missouriensis</i>		Wetter areas only
Regal Torchlily		<i>Kniphofia caulescens</i>	36-40"x24-30"	Refer to PlantSelect.org
Lavender	X	<i>Lavendula Angustifoila</i>		
Alaska Daisy	X	<i>Leucanthemum x superbum</i>		
Gayfeather	X	<i>Liatris spp.</i>		
Blue Flax - Varieties	NX	<i>Linum</i>		Refer to PlantSelect.org
Lupine	S	<i>Lupinus ssp.</i>		Toxic
Creeping Oregon Grape Holly	NX	<i>Mahonia repens</i>		
Silverheels Horehound		<i>Marrubium rotundifolium</i>	2-4"x24-36"	Refer to PlantSelect.org
Desert 4 o'clock	X	<i>Mirabilis multiflora</i>		
Bee-Balm	X	<i>Monarda ssp.</i>		
Hummingbird Trumpet Mint		<i>Monardella macrantha 'Marian Sampson'</i>	4-6"x8-12"	Refer to PlantSelect.org
Catmint - Varieties	X	<i>Nepeta x faassenii</i>		
Evening Primrose - Varieties	X	<i>Oenothera spp.</i>		
Hopflower Oregano		<i>Origanum libanoticum</i>	10-12"x18-24"	Refer to PlantSelect.org
African Daisy	X	<i>Osteospermum</i>		
Avalanche White Sun Daisy		<i>Osteospermum 'Avalanche'</i>	8-12"x24-36"	Refer to PlantSelect.org
Purple Mountain Sun Daisy		<i>Osteospermum barberiae var. compactum</i>	10-12"x12-14"	Refer to PlantSelect.org
Lavender Mist Sun Daisy		<i>Osteospermum sp.</i>	12-14"x14-18"	Refer to PlantSelect.org
Mountain Lover		<i>Paxistima canbyi</i>	8-12"x15-20"	Refer to PlantSelect.org

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

Virginia creeper	S	<i>Parthenocissus quinquefolia</i>		
Penstemon - Varieties	X	<i>Penstemon ssp.</i>		Refer to PlantSelect.org
Purple Prairie Clover	X	<i>Petalostemum purpureum</i>		
Cashmere Sage		<i>Phlomis cashmeriana</i>	36-60"x18-30"	Refer to PlantSelect.org
Snowmass Phlox		<i>Phlox bifida</i>	4-8"x14-18"	Refer to PlantSelect.org
Creeping Phlox	S	<i>Phlox subulata</i>		
Oxlip Primrose		<i>Primula elatior</i>	10-14"x12-16"	Refer to PlantSelect.org
Moroccan pincushion flower		<i>Pterocephalus depressus</i>	3"x10-15"	Refer to PlantSelect.org
Pasque Flower	NX	<i>Pulsatilla patens</i>		
Upright Prairie Coneflower	NX	<i>Ratibida columnifera</i>		
Black-eyed Susan/ Denver Daisy	X	<i>Rudbeckia</i>	18-24"x18-24"	Refer to PlantSelect.org
Salvia - Varieties	X	<i>Salvia ssp.</i>		Refer to PlantSelect.org
Rock Soapwort	X	<i>Saponaria ocymoides 'splendens'</i>		
Purple Winter Savory	X	<i>Satureja montana</i>	4-6"x14-18"	Refer to PlantSelect.org
Pincushion Flower	X	<i>Scabiosa ssp.</i>		
Red Birds in a Tree		<i>Scrophularia macrantha</i>	24-36"x16-20"	Refer to PlantSelect.org
Smoky Hills Skullcap		<i>Scutellaria resinosa</i>	8-10"x10-14"	Refer to PlantSelect.org
Cherry Skullcap		<i>Scutellaria syffrutescens</i>	6-8"x10-14"	Refer to PlantSelect.org
Sedum	X	<i>Sedum spp.</i>		
Moon Carrot		<i>Seseli gummiferum</i>	28-32"x10-14"	Refer to PlantSelect.org
Dalmation Daisy		<i>Tanacetum cinerariifolium</i>		Refer to PlantSelect.org
Partridge Feather		<i>Tanacetum densum ssp. Amani</i>	4-6"x18-24"	Refer to PlantSelect.org
Navajo Tea	NX	<i>Thelesperma mega potanicum</i>		
Thyme	X	<i>Thymus</i>		
Tulips	S	<i>Tulipa ssp.</i>		
Verbena - Varieties	NX	<i>Verbena</i>	4-6"x16-20"	Refer to PlantSelect.org
Veronica – Varieties	S	<i>Vernonia</i>	1-4"x16-24"	Refer to PlantSelect.org
Violet/Pansy – Varieties		<i>Viola</i>	6-10"x10-12"	Refer to PlantSelect.org
Periwinkle	S	<i>Vinca minor</i>		
Orange Carpet Hummingbird Trumpet		<i>Zauschneria garrettii</i>	6-8"x18-24"	Refer to PlantSelect.org
Golden flowered prairie zinnia		<i>Zinnia grandiflora</i>	8-10"x18-30"	Refer to PlantSelect.org

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

ORNAMENTAL GRASSES

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Windwalker big bluestem		<i>Andropogon gerardii</i>	60-72"x18-24"	Refer to PlantSelect.org
Sideoats Grama	NX	<i>Bouteloua curtipendula</i>	10-18"	
Blue Grama	NX	<i>Bouteloua gracilis</i>	4-8"	Refer to PlantSelect.org
Blonde Ambition Gramma Grass		<i>Bouteloua gracilis 'Blonde Ambition'</i>	32-40"x20-24"	Refer to PlantSelect.org
Feather Reed Grass	X	<i>Calamagrostis acutifolia 'Karl Foerstes'</i>	3-5'	Use sparingly, do not mass
Korean Feather Reed Grass		<i>Calamagrostis brachytricha</i>	32-40"x20-24"	Refer to PlantSelect.org
Blue Fescue varieties	X	<i>Festuca glauca varieties</i>	6-12"	
Blue Avena	X	<i>Helictotrichon sempervirens</i>	1-2'	
Pink Crystals Ruby Grass		<i>Melinis nerviglumis</i>	20-24"x12-16"	
Miscanthus Grass	X	<i>Miscanthus sinensis var.</i>	3-6'	
Undaunted Ruby Muhly		<i>Muhlenbergia reverchonii</i>	16-20"x18-24"	Refer to PlantSelect.org
Indian Rice Grass	NX	<i>Oryzopsis hymenoides</i>	18-24"	
Fountain Grass	X	<i>Pennisetum spp.</i>	1-3'	Refer to PlantSelect.org
Little Bluestem	NX	<i>Schizachyrium scoparium</i>	2-3'	Refer to PlantSelect.org
Indian Grass	N	<i>Sorghastrum nutans</i>	4-5'	Adapts to wet areas
Prairie Cordgrass		<i>Spartina pectinata</i>	20-30"x20-30"	Refer to PlantSelect.org
Giant Sacaton		<i>Sporobolus wrightii</i>	620-72"x48-60"	Refer to PlantSelect.org
Needle and Thread	NX	<i>Stipa comata</i>	2-3'	
<u>VINES</u>				

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.

<i>COMMON NAME</i>		<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Trumpet Vine	X	<i>Campsis radicans</i>		Vigorous climber
Clematis	X	<i>Clematis ssp.</i>		Requires improved soil in a cool location, frequent watering & fertilizing
Ruby Moon Hyacinth Bean		<i>Dolichos laglab 'Ruby Moon'</i>	6-8'x3-5'	Refer to PlantSelect.org
English Ivy	S	<i>Hedera helix</i>		Part to deep shade, acid soil
Engelmann Ivy	X	<i>Parthenocissus quinquefoila engelmanni</i>		Vigorous climber in full sun or shade
St. Theresa Seedless Grape		<i>Vitis x 'St. Theresa Seedless'</i>	15-20'x3-8'	Refer to PlantSelect.org

NOTES: N = refers to species native to the Rockies. X = xeric, exhibiting better drought tolerance. W = will tolerate wetter sites. S = Does well in arid climates but may perform better in shade. * Suitable along streets and other public views.
